

Affordable Elegance
CONCRETE STEPPING STONES
BUILD YOUR OWN PATIO

Installing Your Patio

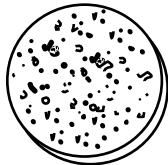

1. Excavate the area of the patio deep enough so that the top of the patio block will be the height you have chosen.
2. In poorly draining soil, a base of compacted gravel is recommended.
3. Lay at least one inch of sand into the bottom of the area you have excavated.
4. Level the sand, but do not compact it.
5. Lay the patio block in the desired fashion you have chosen.
